CERM-B

Regulation No. 37-2-15

6 October 1995

Financial Administration CIVIL WORKS APPROPRIATIONS BUDGET SUPPORTING DATA RCS: CERM-B-13

- 1. <u>Purpose</u>. This regulation assigns responsibilities and provides instructions for preparation and submission of civil budget supporting data for civil works appropriations and allocation accounts (transfer appropriations).
- 2. <u>Applicability</u>. This regulation applies to all HQUSACE elements, major subordinate commands (MSC), districts, laboratories and field operating activities (FOA) having civil works funds management responsibilities.

3. References.

- a. OMB Circular A-11
- b. <u>Budget System and Concepts of the U.S. Government</u>
- c. ER 37-1-24 Operating Budgets
- d. ER 10-1-48 Engineer Reporting Organization Code
- e. ER 37-2-10 Accounting and Reporting Civil Works
- f. Program and Budget Engineer Circular (Annual Program and Budget Requests for Civil Works Activities, Corps of Engineers), applicable fiscal year.
- 4. General Definitions. The following terms are used:
 - a. <u>Current Year</u> (CY) The fiscal year currently underway.
- b. $\underline{\text{Budget Year}}$ (BY) The fiscal year for which estimates are being submitted and that follows the CY.
 - c. <u>Prior Year</u> (PY) The fiscal year preceding the CY.

This regulation supersedes ER 37-2-15, dated 23 June 1989.

ER 37-2-15 6 Oct 95

Background. The Budget and Accounting Act of 1921 assigned to the President the responsibility for preparing an annual budget and transmitting it to Congress. Under this Act, the Bureau of the Budget, now the Office of Management and Budget (OMB), was established to assist and carry out the President's policy on budgetary matters. The Chief of Engineers, under the direction of the Secretary of the Army, is responsible for the preparation and defending of civil works budget estimates before OMB and Congress. The civil works budget formulation process begins in the spring with the reissuance of the Program and Budget Engineer Circular (ref. 3f). The budget formulation process simultaneously considers the needs of individual programs, allocation of budget authority among governmental functions, total outlays, receipts, economic conditions and statutory constraints. In the fall, the Corps submits a budget request (i.e. The Budget Memorandum) to OMB, where analysts review it and identify issues. These issues are resolved between OMB and Corps officials by late December. At that time, HQUSACE and OMB jointly develop detailed budget data and prepare budget documents. In the final stage, the President's budget is transmitted to Congress, by the first Monday in February. HQUSACE concurrently provides budget justification materials to Congress in advance of oral testimony by the Assistant Secretary of the Army (Civil Works), the Chief of Engineers and division commanders.

6. Responsibilities.

- a. MSC Resource Management Office Tasks.
- (1) Prepare and submit schedules (obligations by object classes and reimbursements by sources) for accounts and funds applicable to division office operations.
- (2) Review schedules submitted by districts for consolidation and coordinate changes.
- b. <u>FOA, Laboratories and Districts</u>. Prepare and submit budgetary schedules of obligations by object classes and reimbursements by sources as prescribed in appendices A, B & C. Coordinate among program and project management, manpower and budget analysts to insure complete agreement of program estimates, justification materials and FORCON data with civil budget supporting data.

- 7. Requirement Control Symbol. RCS: CERM-B-13 is assigned to the budget data required by this regulation.
- 8. Preparation Instruction. Civil budget supporting data will be prepared for accounts and appropriations specified in Appendix C. MSC, districts, laboratories and FOA will transmit data electronically via the Civil Automated Budget (CAB) or Corps of Engineers Operating Budget Resource Analysis (COBRA) systems. Amounts will be rounded up and shown in thousands of dollars. For example, \$170,100 rounds to \$171,000 and would be shown as 171. Amounts less than \$100 will not be reported.
- 9. <u>Submission Requirements</u>. The schedules will be furnished to HQUSACE using either the CAB or COBRA applications (Attn: CERM-BE) no later than the last workday in November.
- 10. <u>Guidance</u>. Additional instructions may be issued by HQUSACE, Directorate of Resource Management, Budget and Programs Division, CERM-B. Team members are encouraged to contact Budget and Programs Civil Operations Branch, CERM-BE for assistance. Sample schedules and preparation instructions are provided at appendices.

FOR THE COMMANDER:

3 Appendices

APP A - Net Obligations by Object Class

APP B - Schedule of Reimbursements by Source

APP C - CW Account Titles

ROBERT H. GRIFFIN

Colonel, Corps of Engineers Chief of Staff

APPENDIX A NET OBLIGATIONS BY OBJECT CLASSIFICATION

- A-1. <u>General</u>. An object class schedule will be prepared as specified in Appendix C and reported for both direct and reimbursable obligations for three fiscal years (i.e. prior, current and budget years). Sample format of hard copy ENG FORM 3255-R is shown at Figure A-1. Classification of obligations should be in accordance with reference 3a.
- A-2. <u>Direct Schedules</u>. Prepare and submit a separate schedule of obligations incurred for each account, appropriation, trust or Revolving Fund. Consolidated Working Fund accounts will be combined into a single schedule. Prepare schedules as follows:
- a. Amounts should include all obligations incurred at civil project sites and distributions made through the Revolving Fund.
- b. Obligations initially financed by the Revolving Fund (e.g. distributive accounts, facilities, shops, overhead accounts, etc.) will be reported in the benefitting civil account. Military obligations financed initially by the Revolving Fund should be excluded from all Civil budget reporting.
- c. Personnel compensation (object codes 111 through 130) should correlate with manpower data submitted on the 113G Feeder Report for actual manpower utilization and the Civil Workyear Usage Plan for estimated manpower utilization.
- d. Amounts submitted for rental payments (object code 231) should normally agree with the total GSA charges. However additional building and space rental costs must also be reported.
- e. Amounts for obligation (CY) should agree with apportionment schedules.
- f. Amounts reported for PY should agree with the Status of Appropriations and Work Allowances Civil Works Funds (ENG FORM 3011a).

APPENDIX A (continued)

- g. Current year data should be based on the latest available work allowances, CY operating budget and estimates of unrealized expectations.
- A-3. <u>Reimbursable Schedules</u>. Prepare and submit a separate schedule for each appropriation incurring reimbursable obligations. Reimbursable obligations are limited to funding provided by other agencies. Do not include intra-Corps reimbursable orders.
- A-4. <u>Primary Sources</u>. Derivation of obligations data by object classes should be taken from these sources:
- a. Report on Status of Appropriations and Work Allowances (ENG FORM 3011a)
 - b. COEMIS-FA or CEFMS databases
 - c. Operating Budget see reference 3c.
 - d. Other recommended sources of information are:
